result in an election being made.

Art Unit: 1791

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 10-17, drawn to a method for the automatic manufacture of a glass body.

Group II, claim(s) 18, drawn to an apparatus for the manufacture of a glass body.

The inventions listed as Groups do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: With respect to the invention as recited in claim 18 of Group II, the United States patent US 6,568,218 to Mueller et. al. teaches an apparatus for manufacturing a glass body which discloses every limitation of the instant Application claim 18. Specifically with reference to the instant reference figures 3A and 5, Mueller teaches an apparatus comprising, *inter alia*, a lathe comprising coaxial spindles which are axially moveable relative to one another (col. 16, lines 36-50), an automatic burner (16), monitoring camera (87), temperature sensor (80), data processing system (91) comprising program memory, and manipulators for loading the spindle (30a, 30b).

Where the noted reference to Mueller teaches every element of at least pending claim 18, then there is no special technical feature common to the inventions of Groups I and II and therefore the inventions are not so linked as to form a single general inventive concept as required under PCT Rule 13.1.

A telephone call was made to Felix J. D'Ambrosio (Reg. No. 25,721) on February 19, 2010 to request an oral election to the above restriction requirement, but did not

Application/Control Number: 10/581,666

Art Unit: 1791

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to JASON L. LAZORCIK whose telephone number is (571)272-2217. The examiner can normally be reached on Monday through Friday 8:30 am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on (571) 272-1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
